

NEW PRODUCT RELEASE

For the popular Chevy Colorado/GMC Canyon trucks, Flowmaster is proud to announce our new Force II Cat-back exhaust system, developed for the 2004-2012 Extended Cab and Crew Cab trucks equipped with the 4 or 5 cylinder engine. Manufactured entirely in the US, this 409S stainless steel, bolt-on single-pipe system includes 3.00" mandrel-bent tubing throughout, and incorporates our Super 50 Series muffler for a moderate exterior tone and a mild interior sound level. The tailpipe exits behind the right rear tire and features a polished, Flowmaster-embossed 3.50" tip. Engineered to enhance horsepower, torque and fuel mileage, this system can be easily installed at home using the included hardware and detailed instructions, and like all Flowmaster stainless systems, it is covered by our Limited Lifetime Warranty for long term quality assurance. Please call 1-800-544-4761 or visit www.flowmastermufflers.com for more information.

- **Stainless Steel Construction**
- **Easy Bolt On Installation.**
