

After extensive testing and development on the 1998-2002 Dodge 2500 and 3500 turbo diesel-equipped trucks, Flowmaster proudly introduces our all-new 409S stainless steel Turbo-back Pro Series exhaust system. Engineered for all wheelbases and both 2- and 4-wheel drive, part number 817532 features 4.00" mandrel-bent tubing throughout, and uses our Pro Series Laminar Flow muffler for maximum performance, with a mild-to-moderate sound both inside and out.

Exiting in the factory location, the system utilizes the stock hangers and is capped with a 5.00" diameter polished, Flowmaster-embossed tip for a finished look. Detailed instructions and all necessary hardware make the system easy to install at home, and our Limited Lifetime Warranty provides long term quality assurance.

Please call 1-800-544-4761 or visit www.flowmastermufflers.com for more information.
