

DESCRIPTION

In exciting news for Nissan Frontier owners, Flowmaster introduces our new Force II Cat-back exhaust for the 2005-2012 4.0L Frontier. The system is engineered for the Extra Cab/Long Bed and Crew Cab/Short Bed trucks and fits both 2- and 4-wheel drive. This system will not fit the Pro-4X or XE models. Featuring mandrel-bent tubing, this all 409S stainless steel system bolts on directly behind the factory emissions equipment with a 2.50" pipe, and exits the Super 50 Series muffler with a full 3.00" tailpipe. The system finishes with a fully polished 3.50" stainless tip, and is easily installed at home with the included hardware and illustrated instructions. The 817561 system delivers a moderate performance sound outside and a mild interior tone, as well as the performance and mileage improvements you expect from Flowmaster. Our Lifetime Limited Warranty provides long term assurance of a quality product. Please call 1-800-544-4761 or visit www.flowmastermufflers.com for more information.

- **Stainless Steel Construction**
- **Dyno Tuned For Maximum Performance**
