

DESCRIPTION

As part of our expanding line of performance exhaust products, Flowmaster proudly introduces our new stainless steel full-length Scavenger Series® Elite Headers for popular GM muscle cars. With heavy-duty 3/8" warp-resistant flanges and our leak-free ball-flange connections, these durable headers are ceramic coated for ultimate protection and are designed to improve the performance and throttle response of your classic GM car.

Engineered for big block Chevrolet engines, these headers feature 1 3/4" primaries and 3" collectors and fit most A- and F-body applications from 1964-1974. Please see below for fitment specifics and footnotes.

To assure buyers of the quality, all Flowmaster headers feature a one year warranty, and are engineered for easy at-home installation with the included ball-flange reducers, gaskets and hardware.

Please call 707-544-4761 or visit www.flowmastermufflers.com for more information.

- **Stainless Steel Construction**
- **Ball & Socket Collector Connections**
