

DESCRIPTION

For owners of classic 1957-1974 Corvette small block cars, Flowmaster proudly introduces our new stainless steel 'block hugger' shorty headers. Engineered for maximum efficiency and a great fit in the Corvette chassis, as well as many street rod applications when a center dump header is desired, these headers feature our heavy-duty laser-cut 3/8" thick flanges and our 'gasket-less' ball-flange collectors.

With 1 5/8" primaries and 2-1/2" ball flanges, these headers provide exceptional performance on stock or modified small block engines and the silver ceramic coating provides long-lasting protection and appearance.

With the supplied hardware, including reducers and gaskets, these Scavenger Series® Elite headers are easily installed at home and the 1-year warranty provides assurance of a quality product. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information.
