

DESCRIPTION

Flowmaster is proud to announce the availability of our new all-stainless 817391 Header-back exhaust system for Dodge and Plymouth B-body muscle cars. Engineered as a direct-fit bolt-on for the 1971-1972 Charger and Satellite/Roadrunner/GTX, this 2.50" American Thunder dual exhaust features our popular Super 40 Series mufflers as well as mandrel-bent pipes throughout. The dual tailpipes exit out the back under the valance panel.

Developed for maximum power and efficiency and manufactured entirely in the USA, the 817391 system provides a moderate to aggressive sound inside and out, and delivers the performance gains you expect from Flowmaster. A Lifetime Limited Warranty provides long term quality assurance for the 409S stainless system, while the included instructions and all needed hardware make at-home installation an easy job. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information.
