

DESCRIPTION

Flowmaster, the Exhaust Technology Company, is proud to introduce our all new 409S stainless Cat-back exhaust system for the 2001-2005 Honda Civic Coupe and Sedan, equipped with the 1.7L or 2.0L engines.

This 50-state emissions legal exhaust is a direct bolt-on and fits cars with the mid-cat (EX and Si) or without the mid-cat (LX and DX) using the included parts. Featuring our 60 Series Delta Flow muffler, the exhaust delivers a deep aggressive exterior tone with a moderate interior sound level. Mandrel-bent 2.25" piping throughout provides maximum performance and efficiency and a fully polished 3.50" diameter tip adds the performance look to the back of the car. Detailed instructions and all necessary hardware make at-home installation easy and the all stainless system is protected by our Lifetime Limited Warranty. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.

- **Stainless Steel Construction**
- **Dyno Tuned For Maximum Performance**
- **Patented Delta Flow Technology**
