

## DESCRIPTION

For owners of 1975-1981 Camaros and Firebirds who have been searching for the perfect performance exhaust, Flowmaster proudly introduces our 817571 Header-back American Thunder system. Engineered specifically for the 1975-1981 cars, this 2.50" exhaust delivers a very precise fit and features Slim-Line 50 Series Delta Flow mufflers for the ultimate ground clearance with only a 3" case and mandrel-bent piping throughout. With a moderate to aggressive tone (depending on engine) inside and out, this 409S stainless system exits the car at the rear quarter panels and incorporates a welded H-pipe assembly. Detailed instructions as well as all necessary hardware allow for easy at-home installation and our Lifetime Limited Warranty provides assurance that this will be the last exhaust your Camaro/Firebird will ever need.

Note: This exhaust is designed for off-road use only and is not legal for emissions-controlled vehicles. For installation, a 'double hump' crossmember is required, and additional fabrication will be needed if using OE manifolds. Please call 707-544-4761 or visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) for more information.

- **Stainless Steel Construction**
