

DESCRIPTION

Owners of the 2007-2011 Dodge Nitro now have the final word in performance exhaust available to them. Flowmaster introduces our all new stainless 817582 Cat-back exhaust for the 3.7L and 4.0L V6-equipped vehicles. This USA made Force II system bolts behind the factory converter for 50-state emissions legality, and features our Super 50 Series muffler and a single 2.50" tailpipe for noticeably increased performance and mileage. As a Force II system, the 817582 delivers a moderate sound both inside and out while a fully polished 3.00" stainless tip provides a finished look to the rear of the vehicle. With our Lifetime Limited Warranty, long term quality is assured, and installation is made easy with the included hardware and detailed instructions. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
