

DESCRIPTION

With the restyling of the new 2013 Mustangs, we here at Flowmaster realized we needed parts developed specifically for the new car. Our new Force II Axle-back exhaust, part number 817591, is one of those. Featuring custom-engineered 60 Series Delta Flow mufflers and polished 4.0" tips, this direct bolt-on system provides a deep performance tone outside, while maintaining a mild interior sound level, all while fitting the new car precisely. Based directly on our Axle-back for the 2011-2012 GT, this system delivers a moderate gain in horsepower and torque, and with the included detailed instructions, can be installed easily at home. Proudly manufactured in the USA, this 409S stainless exhaust comes with our Lifetime Limited Warranty for a lifetime of security. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
