

DESCRIPTION

Flowmaster is proud to introduce our new Cat-back exhaust developed specifically for the 2013 Mustang Boss 302. This all-stainless American Thunder system features custom-tuned 60 Series Delta Flow mufflers, 3.0" mandrel-bent piping throughout, and bolts directly behind the OE cats with our Scavenger X pipe. Also featured are the flanges to bolt the factory side pipes onto, which include spacers with .75" holes for more sound. Similar to our 2012 Boss 302 exhaust, the new system fits the restyled 2013 rear bumper closely for a more pleasing look while delivering the aggressive exterior and moderate interior sounds Boss 302 owners want. Manufactured proudly in the USA, this 409S stainless exhaust is protected by our Lifetime Limited Warranty, while the included hardware and detailed instructions make installation easy either at home, or by a professional. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
