

DESCRIPTION

With the introduction of the restyled 2013 Mustang GT came the need for a new Cat-back exhaust, developed specifically for the new 420 HP Mustang. Featuring custom-engineered 60 Series mufflers, part number 817587 is a 3.0" mandrel-bent stainless exhaust that bolts directly behind the OE cats for 50-state emissions legality.

Similar to our 2011-2012 GT system, this new American Thunder system provides an aggressive exterior sound with a moderate interior tone. For the 2013 car, the exhaust places the 4.0" diameter polished tips in a more visually pleasing position under the restyled rear bumper. Like the earlier system, the 817587 is made in the USA from 409S stainless steel and is protected by our Lifetime Limited Warranty. Included hardware and instructions make at-home installation easy. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.

- **Stainless Steel Construction**
- **Dyno Tuned For Maximum Performance**
- **Patented Delta Flow Technology**
- **Lifetime Limited Warranty**
