

DESCRIPTION

Owners of Mopar 'A' Body cars now have cause to celebrate! After extensive engineering, Flowmaster is excited to announce our new Header-back American Thunder system for the 1967-1974 Dodge Dart and Plymouth Valiant. This stainless steel exhaust system features mandrel-bent 2.50" piping and our patented Scavenger X-Pipe assembly along with our legendary Super 40 Series mufflers for a powerful, aggressive tone inside and out, as well as the performance gains you expect from Flowmaster. Exiting directly out the back of the car, the tailpipes finish with turndowns for a subtle performance look. This system includes all necessary installation hardware and detailed instructions, making it an easy home project, and our Lifetime Limited Warranty assures this will be the last exhaust your Mopar will ever need. Please call 707-544-4761 for specific vehicle fitment information or visit www.flowmastermufflers.com for information, updates, product videos and images.
