

DESCRIPTION

Flowmaster is proud to introduce the latest addition to our line of Scavenger Series® Elite headers, part number 814225. Developed for the 2011-2013 5.0L Mustang GT, these 50-state emissions legal headers bolt directly to the OE converters and provide substantial performance improvements over the factory manifolds on both stock and modified engines. Featuring laser-cut 3/8" flanges and 1 3/4" primary pipes, the stainless steel headers are ceramic coated for maximum durability and come with a One Year warranty. The included hardware, including gaskets, and detailed instructions make installation simple for both do-it-yourselfers and professionals. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product images.

- * **Stainless Steel Construction**
