

## DESCRIPTION

The latest generation of Scion's tC packs a 180 HP punch, but leaves much to be desired for sound. Flowmaster has the performance exhaust answer for owners of the 2011-2013 tC, with the 2.50" 817576 Axle-back Force II system. A simple, direct bolt-on, this system features our Outlaw race-bred muffler for added performance and a deep sporty growl outside, with a moderate performance tone inside the car. Manufactured in the USA, this all-stainless system is easily installed at home using the included detailed instructions, and is protected by our Lifetime Limited Warranty to assure product quality. Please call 707-544-4761 or visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) for more information, product images and video.
