

DESCRIPTION

For owners of 2006-2011 Honda Civic Si's, the search for a true high-performance exhaust has ended. Flowmaster is proud to introduce our new 817580 dBX Cat-back exhaust for the 2.0L Civic Si Coupe and Sedan. This all stainless steel system bolts directly behind the OE cat for 50-state emissions legality and features a mandrel-bent 2.25" pipe and our Laminar Flow dBX muffler for a noticeable increase in performance with a deep performance tone outside and a moderate interior sound. A fully polished oval stainless tip adds a finishing touch to the back of the car, while detailed instructions allow for easy installation at home or by a professional. Our Lifetime Limited Warranty means this will be the last exhaust system you'll need to buy for your Honda. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product images and video.
