

## DESCRIPTION

For many owners of the restyled 2013 Mustang GT, being noticed on the street is as important as how the car performs at the track. Fortunately, being noticed just got much easier, with the introduction of Flowmaster's Outlaw Axle-back exhaust system, part number 817592. Featuring the race-developed and proven Outlaw mufflers, and finished with polished, embossed 4.00" diameter tips, this easily installed system gives the 420 HP 5.0 a very aggressive tone inside and out, with moderate interior sound at 1800-2000 RPM. Manufactured in the USA from heavy-gauge 409S stainless steel, this bolt-on system comes with a Lifetime Limited Warranty, as well as detailed step-by-step instructions for both the do-it-yourselfer and professional installer. Please call 707-544-4761 or visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) for more information and product videos.
