

DESCRIPTION

Owners of the 2010 Chevy and GMC 1500 Crew-cab Short-bed trucks equipped with the 6.2 liter engine now have a clear choice for performance exhaust. Flowmaster proudly introduces our all new 817601 Cat-back exhaust system, featuring our 50 Series Big Block muffler. As a Force II system, the 817601 delivers the performance and mileage gains you expect from Flowmaster with a deep but moderate tone outside and an interior sound enthusiasts will love. Featuring all T409 stainless steel construction, the American made exhaust is a full 3.50" diameter all the way through, and finishes with a fully polished, Flowmaster embossed 4.00" T304 stainless tip for a great performance look. All necessary installation hardware is included with the system, and a Lifetime Limited Warranty means this will be the last exhaust system your truck will ever need. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
