

DESCRIPTION

With the return of the Dart to the Dodge stable, an iconic name has been given new life. With its 1.4 liter turbocharged engine, the 2013 Dart Rallye has the performance attitude, but is lacking a true performance sound. Flowmaster proudly introduces our all-new 409S stainless steel Cat-back exhaust developed for the new Dart Rallye, part number 817595.

Featuring our popular dBX muffler with Laminar Flow Technology, the direct bolt-on system delivers a mild interior sound, with a subtle performance growl outside, making it ideal for a daily driven car. Horsepower and torque are noticeably enhanced as well, allowing for even better gas mileage. The system offers dual 2.25" tailpipes which exit through the built-in stainless bezels in the rear bumper, maintaining the factory look, and included illustrated instructions make installation easy at home, or by a professional. Manufactured entirely in the USA, this system comes with Flowmaster's Lifetime Limited Warranty. Please note, this system will not fit the SE, SXT or Limited models. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
