

DESCRIPTION

Volkswagen's ever popular Jetta is a sports car in sedan disguise. With the stock exhaust, however, the sport is well too hidden. To fix that, Flowmaster proudly introduces our 409S Stainless Steel 817598 dBX Cat-back exhaust system for the 1996-1998 Jetta with the 2.0L. Featuring a direct bolt-on connection behind the OE converter, this emissions legal exhaust incorporates our dBX Laminar Flow muffler and 2.25" mandrel bent piping throughout. Finishing with a fully polished dual 3.00" tip, the exhaust delivers the performance and mileage gains only Flowmaster can deliver, with a deep performance tone outside and a moderate interior tone enthusiasts will love to hear. Made in the USA, this stainless steel exhaust includes our Lifetime Limited Warranty, and detailed instructions make at-home installation an easy job. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
