

## DESCRIPTION

In exciting news for owners of 2011-2012 GMC and Chevy 1500 Crew Cab/ Short Bed and Extra Cab/Standard Bed (143" W.B.) trucks equipped with the 6.2 liter engine, Flowmaster introduces part number 817603, our all new Force II Cat-back exhaust system. With a direct bolt-on ball flange style connection, this single 3.50" 409 stainless steel system remains 50-state emissions legal, while the 50 Series Big Block muffler provides a moderate tone both inside and out. The mandrel bent pipes help deliver the performance and efficiency gains you expect from Flowmaster, and a highly polished Flowmaster-embossed stainless steel tip gives the truck a great performance look. Detailed instructions and included hardware allow for easy installation of the system, and our Lifetime Limited Warranty provides assurance that this will be the last exhaust your 6.2 liter truck will ever need. Please call 707-544-4761 or visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) for more information and product videos.
