

DESCRIPTION

When Ford introduced the new 2013 Mustang GT, Flowmaster's R&D team quickly went to work on developing new systems to match the restyled rear bumper cutouts. Part number 817604 is the new Flowmaster Pro Series Axle-back exhaust developed specifically for the 2013 GT. The direct bolt-on exhaust features our Pro Series Laminar Flow mufflers and provides a rich bass tone outside with a mild to moderate interior sound. 409S stainless steel construction means the exhaust will last.

Delivering the performance gains you demand from Flowmaster, this American made exhaust is easily installed at home, and features polished 4.00" stainless tips for a finished look. Our Lifetime Limited Warranty provides the assurance you want that this will be the last exhaust system your Mustang will ever need. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
