

DESCRIPTION

Flowmaster is excited to introduce its new lineup of 49-state Direct-Fit Catalytic Converters. Manufactured in the USA to exacting standards, these 49-state legal stainless steel cats are available as direct replacements for many popular applications and meet or exceed USEPA standards. Advanced wash coat technology, stainless steel construction, and mandrel bent tubing are just a few of the key features that set these converters apart from the competition.

Flowmaster converters include a 25,000 mile emissions, and 50,000 mile/5-year exterior casing warranty. Please note: These USEPA 49-state converters are not available for sale or use on vehicles licensed or operated in the state of California. Please call 707-544-4761 or visit www.flowmastermufflers.com for application and additional product information.

- Available for a variety of Direct-Fit applications
- Meets or exceeds all USEPA 49-state requirements
- 25,000 mile internal components emissions warranty
- 50,000 mile/5-year warranty on exterior casings
