Edge Products Releases the EvoHT for the 2011/2012 Chevy/GMC Duramax LML Trucks

OGDEN, UT — Edge Products is excited to announce the release of the EvoHT for the 2011/2012 Chevy/GMC Duramax LML trucks. The 2012 LML Duramax continues to grow in popularity amongst enthusiasts, daily drivers, and those relying on their truck to tow and haul heavy equipment, livestock, etc. Edge Products delivers up to an additional 81 horsepower and 170 foot pounds of torque to the EvoHT to enhance the overall performance and driving experience for the 2011/2012 Duramax LML.

The EvoHT tuner is built specifically for consumers looking to tune their truck with safe, smart, reliable power. Using “white glove” technology, the EvoHT simply plugs into the vehicle’s diagnostic port where the customer can select from four different power levels for their 2011/2012 Duramax LML using the button interface. With the EvoHT, Edge Products tuning can be installed and used in just minutes with no tools required. All four power levels for the 2011/2012 Duramax LML delivers tuning with the emission system intact. Each level is designed for a specific type of requirement. There will be an Economy, Heavy Trailer, Light Trailer, and Extreme power level.

The EvoHT is the premium hand-held performance tuner from Edge Products. It was developed specifically to offer the most power at the best price, with industry leading service and quality that comes standard with every Edge product. In addition to multiple power levels, the EvoHT will also allow customers to adjust the speed limiter, data log, and update the programmer over the internet, on their PC, for the latest updates, software, and calibration files. The EvoHT also serves as a fully functioning scan tool that can be used to read and clear trouble codes.

With the Edge EvoHT, customers literally hold the power to unlock the hidden potential of the 2011/2012 Duramax LML’s power and fuel economy in the palm their hand. The EvoHT for diesel vehicles retails at \$379 making it an industry leader not only in power and functionality but value! To learn more about the EvoHT and review a full list of up to date coverage visit www.edgeproducts.com

Edge Products is a Powerteq brand, an MSDP company, and manufacturers a full line of plug-in modules, programmers, and in-cab controllers for all popular late-model domestic trucks and SUVs.
