

DESCRIPTION

In order to provide additional stainless steel options for your custom exhaust projects, Flowmaster is proud to introduce our Scavenger Y-Pipes in our 409S stainless steel. Made proudly by hand in the USA, these Y-Pipes feature our carefully engineered 'D' Port technology to help scavenge the exhaust from the cylinders. The Scavenger Y-Pipes are available in various sizes to aid in building exhaust systems for almost any application you might have, and non-race applications are covered by our Lifetime Limited Warranty. Please call 707-544-4761 for detailed application assistance, or visit www.flowmastermufflers.com for part numbers and product details.
