

DESCRIPTION

Flowmaster is proud to announce our new Cat-back exhaust system for the 2006-2012 Honda Ridgeline equipped with the 3.5L engine. Made in the USA, part number 817610 is a full stainless steel system that bolts directly behind the factory converter for 50-state emissions legality. The system features a 2.25" mandrel-bent pipe that follows the factory routing through our dBX Laminar Flow muffler and finishes with a dual-3.00"-exit polished tip. The dBX system delivers the performance gains you demand from Flowmaster with a moderate performance tone inside and out, and the exhaust is easily installed at home using the supplied hardware and detailed instructions. This stainless steel exhaust system is protected by our Lifetime Limited Warranty so you'll know this will be the last exhaust your Ridgeline will ever need. Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
