

DESCRIPTION

Jeep Liberty owners have had limited choices when it comes to great sounding exhaust systems for their vehicles, but Flowmaster now has the solution. Our part number 817607 is a carefully engineered 50-state emissions legal exhaust for the 2008-2012 3.7L Jeep Liberty. Made in the USA, this 409S stainless steel Force II system features our Super 50 Series Muffler and mandrel-bent 2.50" piping throughout. Engineered for maximum performance benefits, this bolt-on system delivers a great performance growl at a moderate volume while keeping a mild tone inside, which makes this system ideal for everyday enjoyment.

A fully polished stainless steel tip provides a finished look to the system, while our Lifetime Limited Warranty provides the assurance of product quality. Supplied hardware and detailed instructions allow for easy at-home or professional installation.

Please call 707-544-4761 or visit www.flowmastermufflers.com for more information and product videos.
