

## DESCRIPTION

Chevy's 2012-2013 Sonic is a sporty small car that needs a sound to match its performance. Flowmaster has the solution in our all new, all stainless steel Cat-back dBX exhaust system. Part number 817605 is a direct bolt-on exhaust that is engineered specifically for the needs of the Sonic's 1.8L engine. With its OE-style connection, this 50-state legal exhaust features a custom-tuned resonator that mounts behind the factory cat, followed by mandrel-bent 2.25" piping and finished with our dBX Series muffler and a fully polished 3.50" stainless tip.

With a moderate sporty growl outside and a mild interior sound level, the dBX system also provides the performance boost you expect from Flowmaster, while our Lifetime Limited Warranty assures you of the quality of the exhaust.

Please call 707-544-4761 or visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) for more information and product videos.
