

## DESCRIPTION

Flowmaster is excited to announce the availability of our new full-length LS Series engine-swap headers! Our Scavenger Series® Elite Headers feature our 3/8" laser-cut flanges and our ball flange connectors as well as 16 gauge stainless primary pipes in 1.75" diameter. Part number 814115 fits LS-1 and LS-6 engines in 1967-1969 Camaros, while part 814116 fits LS-1 and LS-6 engines in 1964-1972 GM A-body cars, such as Chevelles, GTOs, 442s, etc. Flowmaster Scavenger Series® Elite headers come with a quality silver ceramic coating to provide exceptional heat control and a great appearance under your hood. Please note, these headers are not emissions legal and are intended for off-road use only. For more information and product images, please visit [www.flowmastermufflers.com](http://www.flowmastermufflers.com) or call our tech line at 707-544-4761.
