MAHLE

Motorsports 5.4L

NHRA Super Stock

Legal 5.4L Super

Cobra Jet Piston

Assembly

Client: **MAHLE Motorsport**

Morristown, NC – Designed to squeeze every ounce of horsepower from the Super Cobra Jet Mustang 5.4L supercharged motor, MAHLE Motorsports' PowerPak pistons meet all NHRA Super Stock regulations, are NHRA approved and developed for maximum compression, reduced drag and increased ring seal. Machined on MAHLE's lightweight ultra strong forgings to exacting tolerances, the PowerPak pistons are triple coated; first with MAHLE's proprietary Grafal skirt coating, a phosphate dry film lubricant protecting the pin bores from galling, while the top ring grooves are hard anodized to eliminate micro-welding.

MAHLE, the world's largest piston manufacturer operates its U.S. Motorsports division in Morristown, TN. For more information, contact www.mahlemotorsports.com, or call toll free: 888-255-1942.
