## **New Satin Finish from Powermaster Performance**

### **West Chicago, IL**

Powermaster Performance now offers their high quality, American made alternators in a custom new brushed aluminum look in the Satin Finish line. For a more subtle look than chrome or polished, the Satin Finish alternators have a brushed aluminum look that is reminiscent of 60's customs.

Available with an assortment of pulleys, fans, baffles, and nose cones, in chrome, or black the Satin Finish alternators allow a personalized look for any vehicle.
