**PART NO. 72256**

**SBC & BBC ULTRA SERIES CRANK TRIGGER DISTRIBUTOR**

*(Hi-Res color photo attached, B/W available upon request)*

**Fits:** SBC and BBC Short and Tall Deck engine blocks

- Threaded, adjustable billet collar easily adjusts to different intake manifold heights to optimize gear meshing
- Collar has an integrated hold-down
- Adjustment of rotor tip phasing can be accomplished without touching the distributor hold-down, the cap itself can be adjusted
- Rotor tip does not have to be rephased after removing and reinstalling the distributor
- The sealing flange features an o-ring and gasket used to seal crankcase vacuum regardless of the collar height
- Housing features thick o-rings that can withstand frequent installation and removal
- The plastic on the distributor, cap, adapter and rotor is the same plastic Moroso uses on its distributors supplied to top NASCAR teams

PART #	DESCRIPTION
72256	SBC & BBC Ultra Series Crank Trigger Distributor
