

Ultra Pro Magnum™ & Ultra Pro Magnum™ XD Rocker Arms For 1/2" Studs

Memphis, TN – The latest development in rocker arm technology from COMP Cams® are Ultra Pro Magnum™ and Ultra Pro Magnum™ XD Rocker Arms built for 1/2" studs to increase valve train stiffness and stability.

Designed to be used in conjunction with the COMP Cams® Hi-Tech 1/2" Rocker Stud Kit, the latest versions of both COMP Cams® Ultra Pro Magnum and Ultra Pro Magnum™ XD Rocker Arms are built to utilize 1/2" studs to stabilize BBC and SBC valve trains. Ultra Pro Magnum™ Roller Rocker Arms feature a modern arched, web-like design to deliver increased strength and rigidity while still reducing the moment of inertia and optimizing the dynamic balance. Meanwhile, Ultra Pro Magnum™ XD Rockers are built to outlast and outperform in accuracy and strength, while maintaining all the benefits of the Ultra Pro Magnum™ version. The XD rockers are engineered from durable 8650 steel and include a machined billet pushrod seat insert for a super-accurate ratio. Both rockers also boast precision-sorted needle bearings and hardened roller tips. And now that both rocker styles feature the added benefit of accepting 1/2" studs, they are a great choice for anyone looking for more stiffness with stud mount rockers. These new Ultra Pro Magnum™ and Ultra Pro Magnum™ XD Rocker Arms will provide the ultimate in valve train stability for maximum valve motion both at the track and on the street.

#1625-16

Quick Facts

Product: COMP Cams® Ultra Pro Magnum™ & Ultra Pro Magnum™ XD Rocker Arms With 1/2" Studs

Part Number: #1625-16; #1810-16 (XD)

Street Price: \$404.80 (#1625-16); \$433.00 (#1810-16)

Social Media Pitch: COMP Cams® Ultra Pro Magnum™ & Ultra Pro Magnum™ XD Rocker Arms For 1/2" Studs increase valve train stiffness & stability

Features & Benefits:

- 1/2" Studs provide a stiffer valve train to achieve maximum valve motion in SBC or BBC engines
- Deliver increased strength & rigidity while reducing the moment of inertia & optimizing dynamic balance
- Ultra Pro Magnum™ XD Rockers feature a machined billet pushrod seat insert for a super-accurate ratio

About COMP Cams®

Founded in 1976 and based in Memphis, TN, COMP Cams® has become the automotive performance aftermarket's "Absolute Leader in Valve Train Technology." With an ISO 9001:2008 Certification, our mission is to produce the highest performing products possible, provide superior customer service and lead the industry in technological development. Additional information about COMP Cams® and its products can be found at www.compcams.com or at 1.800.999.0853.
