

FOR IMMEDIATE RELEASE:

Wilwood's New Tandem Chamber Master Cylinder

Wilwood's new [Tandem Chamber Master Cylinder](#) represents the latest in refinements in brake pressure actuation and fluid control. These master cylinders add that extra look and style your ride demands. Perfect for hot rods, street rods, custom builds and more. The slotted flange mounting also makes it a simple bolt on for many OE mounts including the popular Chrysler, Corvette, GM, and Ford Mustang bolt patterns. Bore sizes include 7/8", 1" or 1 1/8" making it compatible with manual or power brake system applications.

Available in standard aluminum finish, or choose the optional bright burnished finish to complete that show car look. A black anodized, machined billet lid captures a pressure balanced bellows gasket with 100% sealing against moisture invasion or fluid leakage.

For more information contact: Wilwood Engineering at (805) 388-1188 and request to speak with Erika Gordillo for marketing issues, or Andy Fritts for technical questions. Also, Wilwood's website is accessible at www.wilwood.com or e-mail customerreply@wilwood.com
