

## Tomar™ TD22-3 Three-Disc Clutches

**Lake Zurich, IL** – Due to their small diameter and lightweight design, Tomar™ TD22-3 Three-Disc Clutches feature faster throttle response and quicker deceleration than similar competing versions.

Engineered specifically to fit Yamaha KT 100 applications, Tomar™ TD22-3 Three-Disc Clutches feature a 2 3/8" diameter. This makes them the smallest clutches available anywhere. Designed with three friction discs, these clutches feature the industry's lowest MOI, and also allow for extra torque and horsepower holding capacity. They are capable of handling stall speeds up to 9000 RPM and holding up to 25 horsepower. Meanwhile, patented Thermal Dissipation (TD) Technology allows the clutches to stand up to harsh racing conditions while delivering consistent performance. Tomar™ TD22-3 Three-Disc Clutches are designed for Junior and Senior Sportsman classes and are available in both 10 and 11-tooth designs.

**#371060**

### Quick Facts

**Product:** Tomar™ TD22-3 Three-Disc Clutches  
**Part Number:** #371060 (10-Tooth); #371061 (11-Tooth)  
**Street Price:** \$335.53

**Social Media Pitch:** Tomar™ TD22-3 Three-Disc Clutches feature faster throttle response & quicker deceleration due to their small diameter & lightweight design

#### **Features & Benefits:**

- Diameter of 2 3/8" – smallest clutches available
- 3 Friction discs for industry's lowest MOI; capable of handling stall speeds of up to 9000 RPM & 25 HP
- Use of patented TD technology allows clutch to stand up to harsh racing conditions
- Available in 10 & 11-tooth designs, built for Junior & Senior Sportsman classes
