**For Immediate Release**

### **Granatelli Twin Turbo System for 2008-13 SRT8 Dodge Challengers**

**Oxnard, California** — Granatelli Motor Sports is proud to announce the availability of the Granatelli Twin Turbo system for 2008-13 SRT8 powered Dodge Challengers. The system produces 500 RWHP at just 5 PSI and 580-600RWHP @ 8 PSI but is capable of 1,100RWHP on a professionally built engine. The system features near-ZERO turbo lag, instant tire shredding power, superior fit and finish and all OEM quality. The kit is 100% complete, additional engine modifications recommended after 8 PSI (call for details). The kit includes twin 62/66mm PTE6266 T3/T4 housing Precision turbos, twin 38mm TiAL MVS waste gates, Granatelli/TiAL 50mm compressor bypass valve, stainless steel exhaust components through out the system, powder coated

tubing from turbo to intercooler and from intercooler to throttle body as well as a large front mount air to air intercooler core. Installation requires only moderate mechanical skills and can be completed within 12 hours. For more information, please call 805-486-6644 or visit
