RaceQuip SportMod Helmet

Protection That Won't Break The Bank
or
Easy on your Wallet, Great on your Head
or
Be Safe, Spend Less

RaceQuip's new Sport Model Helmet, aka SportMod, was designed for the budget minded racer. The SportMod delivers all the standard features you would expect to find in a Snell SA-2010 certified helmet, except the price. The SportMod retails for less than \$190.00 yet still exceeds the Snell SA-2010 testing requirements. RaceQuip starts with a hand laid fiberglass shell, and then installs their proven expanded polystyrene (EPS) liner material. Next, a blended Nomex® interior is fitted to provide comfort as well as a proper fit. The 3mm polycarbonate low fog shield provides great peripheral vision and is retained by aluminum pivot kit hardware. A silicone eyeport gasket to keep out dust & dirt, plus TearOff posts, are standard features on this value-priced helmet. The shell is pre-drilled for HNR / HANS anchors to make installation a snap. Sizes available are XS – 2XL in Gloss White or Flat Black with removable SportMod logos. RaceQuip – The Best Value in Safety Since 1975! www.racequip.com 813-642-6644

Key Bullet Points:
