Hellwig Spring Sling for Trailer Repairs

Whether you're towing a camper or cargo trailer, there is always the chance for issues on the road. In the rare occurrence of a leaf spring failure on your trailer, you're going to face a hefty towing bill unless you're prepared with Hellwig's Trailer Spring Sling.

The Trailer Spring Sling provides a temporary repair in the event of a leaf spring failure on your trailer. The Sling simply bolts over the break in the leaf to provide enough support to keep things held together so you can get safely (and without a huge towing bill) home. The Spring Sling kit is easy to store in your trailer so you'll be prepared for any surprise issues on the road.

Like most spare parts that you carry, you'll only need it if you don't have it so you better call Hellwig before your next trip! Hellwig's Trailer Spring Sling will work on most RV or cargo trailers with leaf springs. For more information about the Trailer Spring Sling or other Hellwig load and sway control components, check out: www.hellwigproducts.com or call 800-367-5480.

Hellwig Trailer Spring Sling at a Glance

- A safe and effective answer to getting home versus being towed due to a leaf spring failure
- Easy to install and can be used in many different applications
