CARS Inc. Now Offers Custom Interiors that Fit Like Originals

Rochester, Mich. – Combining precision patterns for over 60 years of classic Chevys and hundreds of original and reproduction materials, CARS Inc. can craft a custom interior that installs and fits just like an original. Perhaps even better!

CARS Inc. has compiled one of the most comprehensive collections in the world of original seat-upholstery patterns for classic Chevys. The company also has new cloth and vinyl material made to high quality standards, as well as thousands of yards of new-old stock (NOS) original interior materials. Using these unsurpassed resources, CARS Inc. can create a custom interior for just about any Chevy that will install and fit like the company's high-quality reproduction interiors.

Want black and white Hounds Tooth seat covers for a 1955 Chevy? Or Silver Cloud inserts made to fit a 1969 Camaro? Or some of the rich looking Impala and Del Ray patterns in a 1960s or 1970s Chevy? Cars Inc. can create just about any combination can conceive! The possibilities are not simply limited to what materials came in a specific model of car.

In addition to cloth and vinyl, CARS Inc. stocks synthetic leather materials and can make most patterns using this material. The company will also use customer-supplied genuine leather.
