## **Speedway Motors G-Comp Front Suspension** **Kit for '62-'67 Chevy II**

Speedway Motors is bringing modern handling at an affordable price to early Nova owners with its all-new [G-Comp Front Suspension Kit for '62-'67 Chevy IIs](#). This performance IFS kit is a complete bolt-in front frame assembly designed around Speedway's exclusive G-Comp spindles and engineered for optimum handling and vastly improved ride and control. It boasts a wide range of great features:

- Clean-sheet IFS design based on Speedway's forged [G-Comp spindles](#)
- Precision handling with optimal negative camber gain
- Caster adjustable with laser cut inserts; camber adjusted with shims
- 2x3-inch .120-wall steel tube rails for increased stiffness
- 11-inch disc brakes standard; up to 13-inch available
- Lowers car 3- to 4-inches from stock, depending on wheel and tire
- Allows use of 18x9-inch front wheels and 255 size front tires

Kits are available for '62-'65 and '66-'67 Chevy II Novas and include the front frame assembly, firewall support tubes, tubular control arms, spindles, AFCO coil-over shocks, sway bar, steering rack and disc brake assembly. Additional options include a heavy-duty sway bar, adjustable shocks, a variety of brake upgrades and fender support braces. Custom-designed inner fender panels will be available soon.

The G-Comp Front Suspension Kit for '62-'67 Chevy IIs is one of the latest product innovations from Speedway Motors, America's Oldest Speed Shop®, where we've made hot rodding safe, fun and affordable for over 62 years.
