

COMP Cams® Quick Tech Video: Maximizing Valve Spring Life

Memphis, TN – The newest Quick Tech Video from COMP Cams® gives engine builders tips on how to maximize the life and performance of new valve springs.

Quick Tech Videos from COMP Cams® are created to help racers, engine builders and automotive enthusiasts at all levels. In the new video, Maximizing Valve Spring Life, COMP Cams® Engineer, Bradley Brown, demonstrates the correct way to handle and install valve springs in order to ensure proper performance and maximize longevity. Because valve springs are the most highly overstressed components in the engine, they require special care. Visit www.cpgnationtv.com or www.youtube.com/compcams to see how the professionals handle and care for their springs and learn how to maximize the life of your valve springs.
