

NEW PRODUCT RELEASE

Flowmaster proudly introduces the latest member of our growing line of 409S stainless products. The 817490 American Thunder Cat-Back system for the 2009-2011 Ram 1500 fits all wheelbase trucks with either the 4.7L or 5.7L Hemi equipped with the single factory tailpipe.

With a bold, aggressive tone outside, the American Thunder system gives the Ram a moderate interior tone, along with the famous Flowmaster performance and efficiency gains. The direct bolt-on exhaust includes all necessary hardware for easy, at-home installation, along with polished, Flowmaster-embossed 3.0" stainless tips. Pipe extensions are included to exit the tailpipes straight out the back of the truck, or out behind each rear tire. The all-stainless system also includes Flowmaster's limited lifetime warranty for long term peace of mind.

- **409S stainless steel construction for maximum durability**
- **Dual-Out-The-Side or Dual-Out-The-Rear**
- **Deep, aggressive performance tone.**
- **Improves torque, horsepower and throttle response.**
- **Includes all necessary parts, hardware and instructions for easy installation**
