

NEW PRODUCT RELEASE

Looking to get increased performance from your red hot 5.0 Mustang? Flowmaster's Force II Axle-back system for the 2011 Ford Mustang GT with 5.0L engine ups the ante with increase horsepower, torque and mileage from these impressive machines. Intended for consumers looking for the performance benefits of a Flowmaster system, but with a quieter tone, the Force II system features specially tuned mufflers that produce the Flowmaster signature sound, providing a deep exterior sound level while maintaining a mild sound level inside the car. The system is constructed with 409S stainless steel for maximum durability and includes cool 4.00-inch diameter polished tips with embossed logo that exit through the factory rear valence cutouts. The kit is a true bolt-on and includes everything needed to easily install at home with basic hand tools. Manufactured in the USA, the system is backed by our Limited Lifetime Warranty.

- Noticeable Power and Mileage Gains.
- True Bolt-On Installation.
- 409S stainless for maximum durability.
- Polished 304 Stainless Tips with Flowmaster Logo.
- No Interior "Drone"
