

For the late model Chevy/GMC truck owner looking for an economical performance gain, Flowmaster proudly introduces its newest stainless bolt-on exhaust system engineered for 2007–2011 GM 1500 trucks. This 3.0" single-tailpipe system fits the 2007–2008 equipped with the 4.8L or 5.3L Flex Fuel engines in all wheel bases except the extended-cab long bed. For the 2009–2011 5.3L Flex Fuel -equipped trucks this system only fits the extended-cab short bed (6.5') and crew-cab short bed (5.5') models. As a Force II system, this exhaust features a Super 50 Series muffler for a mild interior tone with a moderate exterior sound level. Also included is a polished T304 stainless steel Flowmaster-embossed 3.5" diameter tip, detailed installation instructions and all the necessary hardware for easy at-home installation. Manufactured from American-made 409S stainless and backed by Flowmaster's limited lifetime warranty This will be the last exhaust your Chevy or GMC will need.

- **409S stainless steel construction for maximum durability.**
- **Limited Lifetime Warranty**
- **Moderate exterior performance sound with mild interior tone.**
- **Improves torque, horsepower and throttle response.**
- **Made in the USA**
