

Flowmaster is proud to announce its newest stainless steel Cat-back exhaust system for the 2003-2011 Dodge Ram 2500's and 3500's with the 5.7L Hemi engines. Designed to fit all cab and bed configurations, this American Thunder Cat-back system will provide improved performance and fuel economy while producing a moderate tone inside and outside the truck. Constructed from 16 gauge 409S stainless steel and featuring our 50 Series HD muffler, dual 2.50" mandrel bent tailpipes, polished logo embossed 3.00" T304 stainless steel tips and your choice of dual exits under the bumper or behind the rear tires. Detailed instructions and all the necessary hardware is provided to insure easy, at home installation. As with all of Flowmaster's stainless steel products, this system is protected by a limited life time warranty.

- **Stainless Steel Construction**
- **Your Choice of Exit Locations**
- **Deep Performance Tone**
- **Limited Lifetime Warranty**
- **Increased Horsepower and Torque**

409S[®] Stainless Steel
