

NEW PRODUCT RELEASE

For the 1999–2004 Mustang Cobra owner, Flowmaster is excited to introduce the last exhaust system you'll need to buy for your modern muscle car. Manufactured in the USA from 16 gauge 409S stainless steel, part number 817248 features our Super 40 Series Two-Chamber mufflers. With a moderate interior and exterior tone, this American Thunder Cat-back system improves horsepower, torque and enhances gas mileage. Featuring 2.50" mandrel bent pipes throughout, the tailpipes are formed specifically for the Cobra's independent rear suspension and exit in the factory location with polished T304 stainless tips. Up front, the exhaust bolts directly behind the factory emissions equipment ensuring 50-state emissions legality. Included with the kit are detailed step-by-step instructions, all necessary installation hardware and Flowmaster's limited lifetime warranty.

- **Durable Stainless Steel Construction**
- **Easy Bolt-On Installation**
- **Famous Flowmaster 2-Chamber Sound**
- **Limited Lifetime Warranty**
- **Dyno Tuned For Maximum Performance**
