

Dodge Ram 1500 & 2500 truck owners looking for an economical stainless steel exhaust for their '98-'01 5.2L and 5.9L trucks now have a new option. Flowmaster is proud to introduce part number 817178, a single exit Cat-back exhaust system engineered to fit all wheelbases and give the Dodge a mild interior tone with a moderate exterior sound. Ideal for towing, the single 3.0" system allows the engine to produce more horsepower and torque while improving gas mileage. The 100% bolt-on system connects behind the original converter and smoothly transitions from the 2.5" factory pipe to the full 3.0" size. Constructed from durable 409S stainless steel, this system comes with all necessary hardware along with detailed instructions for an easy at-home installation. As on all Flowmaster 409S products, we back this system with a limited lifetime warranty.

- **Stainless Steel Construction**
- **High Quality Mandrel Bent Tubing**
- **Deep Performance Tone**
- **Limited Lifetime Warranty**
- **Dyno Tuned For Maximum Performance**
