

In our continuing push toward full 409S stainless steel product coverage, Flowmaster introduces part number 815814. This pair of mandrel-bent 2.50" tailpipes is designed specifically for the 1986-1993 Mustang LX 5.0, as well as the 1986 GT 5.0. Following factory routing, the tailpipes include OE-style hangers and are finished with polished 304 stainless tips for an original look. As with all Flowmaster stainless products, the pipes are covered by a limited lifetime warranty to help assure these will be the last pipes needed for your legendary 5.0 Mustang.

- **Stainless Steel Construction**
- **CNC Mandrel Bent Tubing**
- **Direct Fit Application**
- **Limited Lifetime Warranty**
- **Polished Tip Sections for OEM look**
