

**NEW PRODUCT RELEASE**

In exciting news for Dodge truck owners, Flowmaster introduces our new 409S stainless steel exhaust system for the 2002–2005 Ram 1500s equipped with the 4.7 and 5.9 liter (non-Hemi) engines. Engineered to bolt onto all wheelbase trucks, this American Thunder system features the Super 50 Series muffler for a moderate sound level and dual mandrel-bent 2.50" tailpipes that can be installed exiting directly out the back under the bumper or out the sides behind each rear tire, using the supplied extensions. Polished, 3.00" Flowmaster-embossed tips provide a finished look. Manufactured entirely in the USA, this exhaust comes with detailed installation instructions, all necessary hardware, and Flowmaster's limited lifetime warranty, assuring you this is the last exhaust your Ram will ever need.

- **Stainless Steel Construction**
