

In exciting news for owners of the new 2011 Dodge Dakota, Flowmaster introduces our new Force II system for both the V6 and V8 powered trucks of all wheelbases. Part number 817520 is an American made, all 409S stainless steel bolt-on system that comes complete with adaptors to connect to both the V6 and V8 converters for 50-state emissions compliance. Featuring the Super 50 Series muffler and a single, mandrel-bent 3.00" tailpipe, this system offers a mild to moderate sound, as well as the performance gains expected from Flowmaster. A 3.50" polished, Flowmaster-embossed tip finishes the system and a Limited Lifetime Warranty provides a lifetime of quality assurance. Included with the system is all the necessary installation hardware, as well as detailed instructions for both the do-it-yourselfer and professional installer.
